Stantec visited Avalon Groves to review reports of low water levels associated with Pond 19. Dring our review water levels were observed to be normal for this time of year. The previous report indicated dewatering of adjacent ponds that would affect the water levels during the dewatering process.

Stanec reviewed pond 19 and surrounding ponds to ensure drainage structures are free of defects and functioning as intended, pond banks are graded correctly and do not have erosion present, and vegetation both within the ponds and beyond the top of bank do not inhibit the functionality of the overall pond system. We have provided location maps and photographic documentation below with recommendations for repairs, to ensure the ponds continue to function as designed.

Greg Woodcock Project Manager Stantec (352) 777-0183 Greg.Woodcock@Stantec.com

Location 1: MES pipe has craked and separated below the concrete end treatment. Pipe should be repaired to prevent additional separation. Turbidity barrier was installed and not removed. If construction is completed the turbidity barrier should be removed.

Location 2: Bare soil observed. Lack of vegetation/sod makes the bank prone to erosion. Sod all disturbed areas.

Location 3: Bare soil observed. Lack of vegetation/sod makes the bank prone to erosion. Sod all disturbed areas.

Location 4: Bare soil observed. Lack of vegetation/sod makes the bank prone to erosion. Sod all disturbed areas.

Location 5: Bare soil observed. Lack of vegetation/sod makes the bank prone to erosion. Sod all disturbed areas.

Location 6: Turbidity barrier was installed and not removed. If construction is completed the turbidity barrier should be removed

Location 7: Bare soil observed. Lack of vegetation/sod makes the bank prone to erosion. Sod all disturbed areas.

Location 8: Bare soil observed. Lack of vegetation/sod makes the bank prone to erosion. Sod all disturbed areas.

Location 9: Exposed bond bank is prone to erosion. Sod exposed pond bank to prevent future erosion

Location 10: Turbidity barrier was installed and not removed. If construction is completed the turbidity barrier should be removed.

Location 11: Bare soil observed around the control structure. Lack of vegetation/sod makes the bank prone to erosion. Sod all disturbed areas.

Location 12: Turbidity barrier was installed and not removed. If construction is completed the turbidity barrier should be removed. Evidence that the mitered end section (MES) is starting to get undermined.

Location 13: Bare soil observed around the control structure. Lack of vegetation/sod makes the bank prone to erosion. Sod all disturbed areas.

Location 14: Bare soil observed around the control structure. Lack of vegetation/sod makes the bank prone to erosion. Sod all disturbed areas.

Location 15: Silt has built up under the skimmer. Remove silt and debris a minimum of 6" under the skimmer to ensure proper flow.

Location 16: Existing trees are to be removed that are crossing the sump area. Ditch pavement is starting to show signs of erosion and undermining. We recommend rip rap around the existing outfall structure to deter undermining and erosion.

Considering the season, most ponds are in great condition. Nuisance grasses were still present in moderate amounts and will be a main focus going forward. In terms of algal activity, there are still minor amounts of decaying algae around the perimeters and throughout some ponds. Those ponds that still contain notable amounts of algae will be on our technician's radar for future visits. Some ponds simply require light touch ups to stay in good health during the summer conditions. Proceeding treatments will continue to combat any new growth that pops up between visits, as the growing season continues. Rains have improved most pond conditions favorably, and should continue to improve them as we move into the rainy, summer months.

RECOMMENDATIONS

Continue to treat ponds for algae, administer follow-ups to ponds experiencing extended decay times.

Administer treatments to any nuisance grasses growing along exposed shorelines and within beneficial plants.

Avoid overtreating ponds, to prevent fish kills or toxic blooms.

Stay alert for debris items that find their way to the pond's shore.

Thank you for choosing Steadfast Environmental!

4. **MONITORING OF SERVICES.** The District shall designate in writing one or more persons to act as the District's representatives with respect to the services to be performed under this Agreement ("District Representatives"). The District Representatives shall have complete authority to transmit instructions, receive information, interpret and define the District's policies and decisions with respect to materials, equipment, elements, and systems pertinent to the Contractor's services. This authority shall include but not be limited to verification of correct timing of services to be performed, methods of pruning, pest control and disease control. Upon approval by the District, the Contractor shall take such actions as are necessary to address the deficiencies within the time period specified by the District, or if no time is specified by the District then within three (3) days and prior to submitting any invoices to the District. If Contractor does not respond or take action within the specified time period, and without limiting the District's remedies in any way, the District shall have the rights to, among other remedies available at law or in equity: fine Contractor One Hundred Dollars (\$100) per day through a reduction in the compensation; to withhold some or all of Contractor's payments under this Agreement; and to contractor's compensation. 5. **SUBCONTRACTORS.** The Contractor shall not award any of the Work to any subcontractor without prior written approval of the District. The Contractor shall be as fully responsible to the District for the acts and omissions of its subcontractors, and of persons either directly or indirectly employed by them, as the Contractor is for the acts and omissions of persons directly employed by the Contractor. Nothing contained herein shall create contractual relations between any subcontractor and the District.

6. **EFFECTIVE DATE.** This Agreement shall be binding and effective as of the date that the Agreement is signed by the last of the Parties hereto, and shall remain in effect as set forth in Section 7, unless terminated in accordance with the provisions of this Agreement.

7. **COMPENSATION; TERM.**

- a. Work under this Agreement shall begin ______, 2023, and end September 30, 2023 ("Initial Term"), unless terminated earlier pursuant to the terms of this Agreement. At the end of the Initial Term, this Agreement may be eligible for three (3) annual renewals with the same terms set forth herein, in the District's sole discretion.
- c. Additional Work. Should the District desire that the Contractor provide additional work and/or services relating to the District's landscaping and irrigation systems, such additional work and/or services shall be fully performed by the Contractor after prior approval of a required Additional Services Order ("ASO"). The Contractor agrees that the District shall not be liable for the payment of any additional work and/or services unless the District first authorizes the Contractor to perform such additional work and/or services through an authorized and fully executed change order. The Contractor shall be compensated for such agreed additional work and/or services based upon a

payment amount derived from the prices set forth in the Contractor's proposal pricing (attached as part of **EXHIBIT B**). Nothing herein shall be construed to require the District to use the Contractor for any such additional work and/or services, and the District reserves the right to retain a different contractor to perform any additional work and/or services.

- d. *Payments by District.* The Contractor shall maintain records conforming to usual accounting practices. Further, the Contractor agrees to render monthly invoices to the District, in writing, which shall be delivered or mailed to the District by the fifth (5th) day of the next succeeding month. Each monthly invoice shall contain, at a minimum, the District's name, the Contractor's name, the invoice date, an invoice number, an itemized listing of all costs billed on the invoice with a description of each sufficient for the District to approve each cost, the time frame within which the services were provided, and the address or bank information to which payment is to be remitted. Consistent with Florida's Prompt Payment Act, Section 218.70 et al. of the Florida Statutes, these monthly invoices are due and payable within forty-five (45) days of receipt by the District.
- e. Payments by Contractor. Subject to the terms herein, Contractor will promptly pay in cash for all costs of labor, materials, services and equipment used in the performance of the Work, and upon the request of the District, Contractor will provide proof of such payment. Contractor agrees that it shall comply with Section 218.735(6), Florida Statutes, requiring payments to subcontractors and suppliers be made within ten (10) days of receipt of payment from the District. Unless prohibited by law, District may at any time make payments due to Contractor directly or by joint check, to any person or entity for obligations incurred by Contractor in connection with the performance of Work, unless Contractor has first delivered written notice to District of a dispute with any such person or entity and has furnished security satisfactory to District insuring against claims therefrom. Any payment so made will be credited against sums due Contractor in the same manner as if such payment had been made directly to Contractor. The provisions of this Section are intended solely for the benefit of District and will not extend to the benefit of any third persons, or obligate District or its sureties in any way to any third party. Subject to the terms of this Section, Contractor will at all times keep the District's property, and each part thereof, free from any attachment, lien, claim of lien, or other encumbrance arising out of the Work. The District may demand, from time to time in its sole discretion, that Contractor provide a detailed listing of any and all potential lien claimants (at all tiers) involved in the performance of the Work including, with respect to each such potential lien claimant, the name, scope of Work, sums paid to date, sums owed, and sums remaining to be paid. Contractor waives any right to file mechanic's and construction liens.

SCOPE OF SERVICES

PART 1

GENERAL LANDSCAPE MAINTENANCE

1) MOWING – All grass areas will be mowed on the following schedule:

MARCH 1 – NOVEMBER 1 – Once a week NOVEMBER 1 – MARCH 1 – Once every two weeks

This schedule estimates that there will be between 41 – 45 cuts annually based on standard growing periods in Florida, however, requires a minimum of 52 visits (weekly) to perform those duties, other than mowing, that cannot remain unattended for two weeks. (i.e., weed control, selective mowing, debris clearing, and general detailing of property, etc.) Notwithstanding the above, at no time will the grass (or weeds within turf) be allowed to grow beyond a maximum height of five (5) inches. Each mowing should leave the St. Augustine & Bahia grass at a height of three and one half (3 1/2) to four (4) inches, Celebration Bermuda at a height of three quarter (3/4) to one and one quarter $(1 \frac{1}{4})$ inches & Zoysia at a height of one (1) to one and one half $(1 \frac{1}{2})$ inches. Rotary Mowers are preferred for heights above one (1) inch. Do not remove more than 1/3 of the height of the leaf blade at anyone mowing. All blades shall be kept sharp at all times to provide a high-quality cut and to minimize disease. The DISTRICT requires mowers to be equipped with a mulching type deck. Clippings may be left on the lawn as long as no readily visible clumps remain on the grass after mowing. Otherwise, large clumps of clippings MUST either be collected and removed by the CONTRACTOR OR be left to dry out on the lawn for no more than one day and then re-distributed across the lawn. The mulching kit must be left in the "closed" position at all times, specifically when mowing pond banks and all parks. Additionally, when mowing pond banks, mowers must be used in a counterclockwise direction. This is to re-introduce nutrients in the clippings back into the soil system. In case of fungal disease outbreaks, the clippings will be collected until the disease is under control. Contractor will be responsible for line-trimming these areas during each and every mow event. Contractor is to include in his proposal, any and all necessary equipment, protective clothing or any other gear necessary for crews to perform this work. No "extras" will be billed to the District. The CONTRACTOR shall restore any noticeable damage caused by the CONTRACTOR'S mowing equipment within twenty-four hours from the time the damage is caused at his sole cost and expense. Contractor shall be responsible for training all its personnel in the technical aspects of the District's Landscape Maintenance Program and general horticultural practices. This training will also include wetland species identification as it relates to lake banks & wetland areas. The Contractor shall be held responsible for all damage to wetlands, littoral shelves, mitigation areas and uplands due to mowing/fertilizing, etc. Weekend work is permitted when necessary, upon prior approval.

Pond Mowing - All ponds identified as such on the overall Maintenance Exhibit shall be mowed incorporating the same mowing schedule as the common areas stated above. Line trimming at Bridge entrances water's edge, control structures, mitered end sections and any other storm water structures shall occur each and every time the pond is mowed. Each mowing shall leave the grass at a height of four (4) to four and one half (4½) inches. This is slightly higher than the mow height in common area Bahia plantings in flatter areas to minimize pond bank erosion. Pond banks will be mowed and trimmed to water's edge. Careful attention must be paid to mower height on pond banks so as not to scalp at the crest of the lake bank and increase the chances for pond bank erosion. Also, when line trimming to water's edge, Contractor shall be extremely careful not to scalp at the water's edge also increasing chances of pond bank erosion. Line trimming height shall be the same as mowing height (if not slightly higher). Contractor shall be careful to keep trimmings from entering water. Excessive clippings shall be hand removed. Mowers must blow all clippings away from pond banks. It is understood that

trash debris of any kind and other debris within arm's reach of water's edge shall be removed & disposed of by Contractor during every normal service event.

2) EDGING AND TRIMMING – All hard-edged areas (curbs, sidewalks, bike paths, trails, etc.) shall be vertically edged at each and every mowing event and soft-edged areas (tree rings, shrub and groundcover bed lines) shall be edged a minimum of every other week. All edging shall be performed to the sole satisfaction of the DISTRICT. Chemical edging shall not be permitted anywhere on property.

AT NO TIME SHALL LAWN BE ALLOWED TO GROW IN AN UNSIGHTLY MANNER. SHOULD THIS OCCUR, CONTRACTOR AGREES TO CORRECT WITHIN TWENTY-FOUR HOURS OF NOTICE BY DISTRICT. CONTRACTOR SHALL COMPLETE ALL LAWN MAINTENANCE ACTIVITIES (MOWING, EDGING, LINE TRIMMING, BLOWING OFF SIDEWALKS, DRIVEWAYS, CURB & GUTTERS, ETC.) IN RELATIVELY SMALL, MANAGEABLE SECTIONS. CONTRACTOR IS NOT TO LEAVE GRASS CLIPPINGS, TRIMMED WEEDS, TURF, DIRT OR DEBRIS ON ANY SURFACES FOR MORE THAN TWO HOURS. PARK SITES, CLUBHOUSES, PARKING LOTS AND ALL OTHER HIGH TRAFFIC AMENITIES ON THE PROPERTY SHALL BE CLEANED UP <u>IMMEDIATELY</u> AFTER MOWING AND EDGING TAKES PLACE. IF A MOWING EVENT IS MISSED, EVERY EFFORT SHALL BE MADE TO PERFORM THE MOWING SERVICE THE SAME WEEK (INCLUDING SATURDAYS WITH PRIOR APPROVAL). IF THIS IS NOT POSSIBLE, THE CONTRACTOR SHALL PROVIDE THE DISTRICT A CREDIT FOR FUTURE SERVICES OR ADD A MOWING EVENT TO BE PROVIDED AT A LATER DATE. THE DISTRICT SHALL DETERMINE WHETHER THE CREDIT OR EXTRA MOWING SHALL BE USED.

3) TREE AND SHRUB CARE – All deciduous trees shall be pruned when dormant to ensure proper uniform growth. All evergreen trees shall be pruned in the early summer and fall to ensure proper growth and proper head shape. Sucker growth at the base of the trees shall be removed by hand continuously throughout the year. Aesthetic pruning shall consist of the removal of dead and/or broken branches as often as necessary to have trees appear neat at all times. Branches will be pruned just outside the branch collar. Contractor is responsible for the removal of all branches and limbs up to a 4" diameter and up to a 15' height to keep them from encroaching onto buildings (including roofs), signage structures, play structures, fences & walls, as well as pruned to prevent street lights and traffic signage from being blocked. Additionally, trees shall be pruned over sidewalks, nature trails, parking lots and roadways so as not to interfere with pedestrians or cars. (This is to include maintaining at all times a minimum of ten to fifteen (10-15) feet of clearance under all limbs depending on location and species of tree but shall vary according to DOT specs.) All moss hanging from trees (as well as all ball moss) shall be removed up to a height of 15' from all trees on an as-needed basis. However, during the dormant season, ALL Crape Myrtles shall have ALL mosses removed from the entire tree regardless of height. Crape Myrtles are not to be "hat racked" at any time. Pencil pruning is the preferred method of Crape Myrtle pruning and should be performed after threat of frost has passed. The initial removal of all Spanish and Ball Mosses shall be completed within ninety (90) days of contract commencement.

All shrubs will be pruned as necessary to retain an attractive shape and fullness, removing broken or dead limbs as necessary to provide a neat and clean appearance. Shrubs shall not be clipped into balled or boxed forms unless such forms are required by design. Shrubs shall be pruned in accordance with the intended function of the plant in its present location. Flowering shrubs shall be pruned immediately after the blossoms have cured with top pruning restricted to shaping the terminal growth. All pruning shall be done with horticultural skill and knowledge to maintain an overall acceptable appearance consistent with the current aesthetics of District property. The Contractor agrees that pruning is an art that must be done under the supervision of a highly trained foreman and shall make provisions for such supervision. Individual plants pruned into rounded balls or unnatural shapes will not be allowed. Contractor shall sterilize all pruning equipment prior to pruning the next shrub grouping; particularly when fungal diseases are known to be present. All clippings and debris from pruning will be carted away at the time pruning takes place. It is of utmost importance that all plant material within clear site lines and visibility triangles at roadway intersections and medians is maintained at or below the required heights. It is the Contractor's responsibility to bring to the attention of the District all areas that are not in compliance. If pruning will bring the area into compliance, then the Contractor, after conferring with District's representative, will proceed with the pruning activity. However, if pruning will NOT bring the area into compliance, perhaps due to permanent existing grades, then another solution will need to be proposed and executed. Contractor will also be responsible to keep mulch pulled away from the base of ALL landscape lights at ALL times, not just after a mulching event. This is specific to LED with circuit boards in base.

AREAS WHERE WETLANDS ARE ADJACENT TO TURF AREAS (WHETHER ALONG ROADWAYS OR LAKE BANKS) CONTRACTOR IS RESPONSIBLE TO KEEP ALL WETLAND MATERIAL CUT BACK AT ALL TIMES AND NOT LET THIS MATERIAL REDUCE THE SIZE OF THE TURF AREA.

Palms - All palms (regardless of height) shall receive pruning as often as necessary to appear neat and clean at all times. This includes the removal of brown and/or broken fronds and inflorescence. Removal of green or even yellowing fronds is unnecessary and pruning palms above the nine o'clock – three o'clock line is prohibited. Fronds should be removed only once they turn brown or become broken or are disrupting flow of pedestrian/vehicular traffic or are hanging on architectural structures. Fruit pods shall be removed prior to development. Tarpaulins shall be used in areas where date palms and other palm fruits may stain sidewalks & pavement including, but not limited to, pool decks. Contractor shall be responsible for the removal of all palm fruit stains. Contractor shall sterilize all pruning equipment prior to pruning the next palm, paying careful attention when pruning Medjool, Sylvester, Reclinata and Canary Palms.

4) WEEDS AND GRASSES – All groundcover, turf areas, shrub beds & tree rings shall be kept reasonably free of weeds and grasses, and be neatly cultivated and maintained in an orderly fashion at all times. This may be accomplished by carefully applied applications of pre & post emergent herbicides as part of fertilizer mixtures and post-emergent herbicide spot treatments on an as-needed basis. Condition of turf is to be determined by the DISTRICT at its sole discretion. All shrub and bed areas shall be maintained each mowing service by removing all weeds, trash and other undesirable material and debris (leaf and other) to keep the area neat and tidy. This is to be accomplished through hand pulling or the careful application of a post-emergent herbicide.

AT NO TIME SHALL POST-EMERGENT HERBICIDES BE PERMITTED WHEN WEEDS HAVE ESTABLISHED THEMSELVES AS TO DOMINATE PLANTING BEDS. <u>HAND PULLING MUST BE PERFORMED</u>.

NON-SELECTIVE, POST-EMERGENT HERBICIDES SHALL NEVER BE USED TO CONTROL WEED/SOD GROWTH AROUND STRUCTURES OF ANY TYPE (I.E. STREET SIGNS, UTILITY BOXES, STREET LIGHTS, PAVEMENT, TREE RINGS, ETC.) THE FIRST OFFENSE WILL RESULT IN A VERBAL WARNING; THE SECOND OFFENSE WILL RESULT IN A SECOND VERBAL WARNING AND THE BOARD OF SUPERVISORS FOR THE DISTRICT WILL BE NOTIFIED; THE THIRD OFFENSE MAY TERMINATE THIS CONTRACT FOR CAUSE AT THE DISTRICT'S DISCRETION. CONTRACTOR WILL BE HELD RESPONSIBLE FOR THE REPLACEMENT OF ALL TURF DAMAGED BY THE APPLICATION OR OVERSPRAY OF HERBICIDES (SELECTIVE OR NON-SELECTIVE).

The CONTRACTOR shall be responsible for the replacement of ornamental plants killed or damaged by herbicide application. All fence lines shall be kept clear of landscape shrubs growing through, weeds, undesirable vines and overhanging limbs.

5) MAINTENANCE OF PAVED AREAS – All paved areas (including, but not limited to, pool deck pavers, other paver surfaces, sidewalk expansion joints, curb and gutters, curb and gutter expansion joints, bike lane edges along roadways) shall be kept weed & debris free. This may be accomplished by mechanical means

(line trimmer) or by applications of post/pre-emergent herbicides. Weeds greater than two (2) inches in height or width shall be pulled from paved areas, not sprayed. No sprays with dyes may be used on any paved areas. Contractor is not to use non-selective herbicides to eradicate weeds in curbline expansion joints where the chemical can travel back into the turf causing regularly spaced dead patches behind the curbs and sidewalks.

6) CLEAN UP – At no time will CONTRACTOR leave the premises after completion of any work in any type of disarray. All clippings, trimmings, debris, dirt or any other unsightly material shall be removed promptly upon completion of work. CONTRACTOR shall use his own waste disposal methods, never the property dumpsters. Grass clippings shall be blown off sidewalks, streets and curbs within a relatively short time frame and are not to be left for more than two hours, unless otherwise noted above. Also grass clippings shall be blown into turf areas, never into mulched bed areas or tree rings as these are to be maintained free of grass clippings. Grass clippings at highly trafficked areas (i.e., tennis courts, clubhouse sidewalks, pool areas, walking trails, etc.) shall be blown off immediately after mowing and edging have taken place. NO CLIPPINGS SHALL BE BLOWN DOWN CURB INLETS.

7) **REPLACEMENT OF PLANT MATERIAL** – Trees and shrubs in a state of decline should immediately be brought to the attention of the DISTRICT. Dead or unsightly plant material shall be removed upon notification of the DISTRICT. CONTRACTOR shall be responsible for replacement if due to his negligence. New plant material shall be guaranteed for a period of one (1) year for trees and ninety (90) days for shrubs, ground cover and lawn after final acceptance.

PART 2

For purposes of bidding and until a soil test is provided to indicate otherwise, all turf shall be fertilized according to the following IFAS Guidelines for a high maintenance level for south Florida turf: (per GIBMP guidelines and University of Florida IFAS Extension, south Florida is determined by anything south of a line running east-west from coast to coast through between Tampa & Vero Beach.)

Prior to final fertilization selection, a complete soil test should be performed to test for soil pH as well as N, P & K levels. Should change be of merit, the Contractor shall notify the District in writing prior to the implementation of such change. At times environmental conditions may require additional applications of nutrients, augmenting the above fertilization programs to ensure that turf areas are kept uniformly GREEN, healthy and in top condition. It shall be the responsibility of the contractor to determine specific needs and requirements and notify the resident project representative when these additional applications are needed.

Fertilizers containing iron shall be immediately removed from all hard surfaces to avoid staining before the sprinklers are activated after application of the fertilizer. Any stains caused by a failure to do so will be the responsibility of the contractor to remove.

PART 3

PEST CONTROL

Insects and Disease in Turf - Insect and disease control spraying in turf shall be provided by the Contractor every month with additional spot treatment as needed. During the weekly inspections the Contractor is responsible for the identification and eradication/control of disease and insect damage including but not limited to: scale, mites, fungus, chinchbugs, grubs, nematodes, fireants, mole crickets, etc. Contractor shall pay for chemicals. Please list all chemicals that you will include in your fertilizer applications in the space allocated for "formula" under the fertilization section in the bid form. Also include the cost of these chemicals as part of the fertilizer application. Any anticipated additional treatments shall be included in the Pest Control portion of the bid form.

Insects and Disease Control for Trees, Palms and Plants - The Contractor is responsible for treatment of insects and diseases for all plants. The appropriate insecticide or fungicide will be applied in accordance with state and local regulations, and as weather and environmental conditions permit. Contractor shall pay for chemicals. There are several afflictions that may be detrimental to the health of many trees and palms. Contractor will be fully responsible in the treatment of such afflictions. At the District's discretion, this may include the quarterly inoculation of all palms susceptible to Lethal Yellowing and/or Texas Phoenix Palm Decline. The cost of these inoculations should be included as a separate line item in your Pest Control price. Contractor is to identify those

species of palms susceptible and supply a list of species and quantities with proposal. Each susceptible palm shall receive quarterly injections. Each injection site/valve can be used only twice. The third quarterly injection requires a new valve and injection site. Contractor is asked to provide cost per injection (material & labor) multiplied by quantity of susceptible palms multiplied by four inoculations per year in bid form. The District reserves the right to subcontract out any and all OTC Injection events. This will not be included in the Contract Amount.

The Contractor is required to inspect all landscaped areas during each visit for indication of pest problems. When control is necessary, it is the responsibility of the Contractor to properly apply low toxicity and target-specific pesticide. If pesticides are necessary, they will be applied on a spot treatment basis when wind drift is a threat.

Careful inspection of the property on each visit is crucial to maintaining a successful program. It is the Contractor's full responsibility to ensure that the person inspecting the property is properly trained in recognizing the symptoms of both insect infestations and plant pathogen damage (funguses, bacteria, etc.). It is also the Contractor's responsibility to treat these conditions in an expedient manner.

It shall also be the Contractor's responsibility to furnish the resident project representative with a copy of the Pest Management Report (a copy of which is included), which he is to complete at every service as well as all certifications (including BMP Certifications) of all pesticide applicators. Contractor shall familiarize himself with all current regulations regarding the applications of pesticides and fertilizers.

If at any time the District should become aware of any pest problems it will be the Contractor's responsibility to treat pest within five (5) working days of the date of notification.

Fire Ant Control - Contractor is required to inspect property each visit for evidence of fire ant mounds and immediately treat upon evidence of active mounds. In small areas control can be achieved by individual mound treatment. Active mounds in larger turf areas will require broadcast application of bait. Contractor shall be responsible to knock down and spread-out soil once mounds are dead.

For informational purposes only, Contractor is asked to provide the cost for the annual application of Top Choice in all finished landscape areas designated as "District Landscape Area" on the Maintenance Exhibit. These areas are indicated with a dark green color. UNLESS OTHERWISE DIRECTED, ONLY THOSE AREAS COVERED BY AUTOMATIC IRRIGATION ARE TO BE INCLUDED IN THIS NUMBER. This is not to include lake banks behind the residential properties or between ponds and conservation areas.

Pest Control will not be included as a standard line item in each monthly billing, but shall be invoiced as a separate line item the month after service is rendered.

Pest Control shall be included in the Contract Amount.

PART 4

IRRIGATION SYSTEM MONITORING AND MAINTENANCE

Irrigation System. Contractor shall inspect and test the irrigation system components within the limits of the District a minimum of one (1) time per month. Areas shall include all of the existing irrigation systems to date (app. 83 zones, 2 controllers, 2 pump stations & 1 well).

These inspections shall include:

 - 4. Test automatic protection devices
- C. Irrigation Systems
 - 1. Manual test and inspection of each irrigation zone in its entirety.
 - 2. Clean and raise heads as necessary
 - 3. Adjust arc pattern and distance for required coverage areas

- D. Report
 - 1. Irrigation operation time
 - 2. Irrigation start time
 - 3. Maintenance items performed
 - 4. General comment and recommendations

The above list is for routine maintenance and adjustment of the existing irrigation system components. Locating and repairing or replacing automatic valves or control wires and irrigation controller or pump repairs as well as other larger scale repairs are to be considered additional items. Contractor shall provide a list of additional charges and pricing for such items other than routine maintenance as a separate price from this bid.

Routine irrigation maintenance is to be completed monthly. Each zone is to be turned on and operated for as long as necessary to verify proper operation. Each head, seal, nozzle and strainer is to be inspected for adjustment and shall be aligned, packed, cleaned and repaired as necessary. Shrubs, groundcovers and turf around sprinkler heads shall be trimmed to maintain maximum clearance at all times for the greatest coverage. It shall be the Contractor's responsibility to ensure all drip tubing is covered with mulch prior to Contractor leaving the property. All below ground repairs including valves, pumps and wiring require an estimate for all such repairs. Upon written approval from Management, Contractor shall proceed. In the event of an emergency, Contractor shall make a diligent effort to contact, with the approximate price or estimate of repairs, Management or their assign prior to making such repair.

Upon execution of the Agreement, Contractor shall assume responsibility for any and all unreported maintenance deficiencies, including parts and labor, associated with the irrigation system of 2 inches or less, to include sprinkler heads, nozzles, drip, main and delivery lines and any associated fittings. Said repairs shall be performed immediately. The District Manager shall be notified what day and time of the week the irrigation tech will be available servicing the community. The Contractor will keep detailed irrigation reports consisting of

run times and correct operation of system. A copy of this report will be maintained by the Contractor and a copy delivered to the District Manager or his designee, along with the weekly report. At no time shall the Contractor leave the property knowing of the need for a repair and not reporting it.

Watering schedules shall meet all government regulations, and zone times will be adjusted depending on job conditions, climactic conditions and all watering restrictions of Lake County or any other governmental agencies. It is the responsibility of the Contractor to ensure the turf and plant material remains healthy. If the Contractor finds that the irrigation system cannot adequately cover the District in the allotted time, it will be the Contractor's responsibility to bring this to the attention of the District representative and apply for a variance. Violations and/or fines imposed by any local or state agency will be deducted from the Contractor's monthly payment.

Emergency service shall be available after normal working hours and an emergency telephone number will be provided to Management or their assign. Broken mainlines and irrigation valves stuck in the "open" position are to be considered emergencies.

Freeze Protection. The Contractor shall describe ability and cost per application to provide freeze protection for pumps/wells.

PART 5

INSTALLATION OF MULCH

After prior approval by the Board of Supervisors, Contractor shall top dress all currently landscaped areas as shown on the maintenance map (landscaped beds, tree rings) with Grade "A" Medium Pine Bark Mulch up to twice per year during the months of April and October. In doing so, Contractor shall ensure that all mulched areas are brought to a minimum depth of three (3) inches after compaction.

Contractor is responsible for all necessary clean up related to this procedure.

Contractor agrees to provide reasonably neat and defined lines along edges of all mulched areas. In addition to the aesthetics of this, it is also done to facilitate mechanical edging of these areas. Additionally, Contractor shall properly trench all bedlines adjacent to concrete surfaces. Trenches shall be 3" deep and beveled. Mulched beds on slopes adjacent to turf shall also be trenched to a depth of 3" & beveled to reduce mulch washout. This procedure has not been practiced in the past and Contractor is to include any additional labor in the cost of the mulch for all trenching. Mulch shall not be piled around tree trunks or bases of plants. Any mulch "volcanoes" around tree trunks shall be corrected immediately at no additional cost to Owner.

Contractor agrees to ensure that mulch caught in plant material will be shaken or blown from plants, so that upon completion there is no plant material left covered with mulch.

If, after installation is complete and it is determined that additional mulch is required to attain the required total depth of 3", sufficient mulch shall be supplied by Contractor at no additional cost to District.

This item will not be included in the contract amount and shall be invoiced separately the month after service is rendered. Contractor shall provide a price per cubic yard and estimated quantities to be installed per top dressing (based on his own field measurements) and shall submit with bid.

The District reserves the right to subcontract out any and all mulching events.

PART 6

ANNUAL INSTALLATION

Planting of Annuals. After prior approval by the Board of Supervisors, Contractor shall replace approximately _______ annuals per planting in 4" pots up to four (4) times per year in designated areas and maintain annuals to ensure a healthy appearance. The Contractor will have the type of annual to be installed pre-approved by the District or its representative in writing. An Annual Options Presentation for the entire year stipulating plant options and timing for each rotation shall be submitted to the District shortly after execution of contract in order for the District or its representative to select annual choice(s). Annuals shall be hand watered at the time of installation. The Contractor will remove dead or dying annuals before the appearance of such annuals could be reasonably described as an eyesore. If the beds are left bare prior to the next planting, the Contractor will keep such beds free of weeds at all times until the next planting rotation occurs. Timing shall be centered on a holiday rotation being planted no later than the end of the first week of December and rotate accordingly every three months. (Jan., April, July, and Oct.)

Annual installation price shall include the removal of all dead annuals prior to placing new plants, regular deadheading, necessary soil adjustments, soil additives, fungicides and monthly slow-release nutritional requirements at no additional cost to District. Contractor shall replace at his expense any annual that dies, fails to thrive or is damaged by insects/disease. Contractor shall also include in the spring rotation (March) at no additional cost to District, a major renovation of all annual beds. A potting mix specifically blended for annuals shall be used at this time and shall be replenished as necessary prior to each changeout throughout the year. All annual beds shall be raised at least eight inches and covered with a layer of Pine Fines 1" thick. All this shall be provided at no additional cost to the District.

This item will not be included in the contract amount. Contractor shall provide a price per 4" plant as requested and shall submit with bid. This work shall be invoiced separately in the month after service is rendered. Annuals shall include the following:

December through March

A combination of pink petunias, dusty miller and holiday poinsettias. Replace Poinsettias with Dwarf(Sonnet, Snapshot or similar) snapdragons after the holidays or when the poinsettias decline

November and December

Red and white petunias ** Alternatives could include Begonias, Sunpatiens, Marigolds, Wheat Celosia, Joseph's coat or Geraniums

REQUEST FOR PROPOSALS LANDSCAPE MAINTENANCE SERVICES

EVALUATION CRITERIA

1. <u>Personnel & Equipment</u> (20 Points Possible) (_____ Points Awarded)

This category addresses the following criteria: skill set and experience of key management and assigned personnel, including the project manager and other specifically trained individuals who will manage the property; present ability to manage this project; proposed staffing levels; capability of performing the work; geographic location; subcontractor listing; inventory of all equipment; etc. Skill set includes certification, technical training, and experience with similar projects. Please include resumes, certifications, etc., with proposal. Please also provide evidence of the proposer's ability to meet deadlines and be responsive to client needs.

2. <u>Experience</u> (25 Points Possible) (_____ Points Awarded)

A full twenty-five (25) points will be awarded to the Proposer which clearly distinguishes past & current record and experience of the Proposer in similar projects; volume of work previously awarded to the firm; past performance in any other contracts; etc.

3. <u>Understanding Scope of RFP</u> (15 Points Possible) (_____ Points Awarded)

This category addresses the following issues: Does the proposal demonstrate an understanding of the District's needs for the services requested? Does it provide all information as requested by the District including pricing, scheduling, staffing, etc.? Does it demonstrate clearly the ability to perform these services? Were any suggestions for "best practices" included? Does the proposal as a whole appear to be feasible, in light of the scope of work? Did the contractor use the forms provided from the Project Manual in responding to the proposal?

4. <u>Financial Capacity</u> (5 Points Possible) (_____ Points Awarded)

This category addresses whether the Proposer has demonstrated that it has the financial resources and stability as a business entity necessary to implement and execute the work. Proposer should include proof of ability to provide insurance coverage as required by the District as well as audited financial statements, or similar information.

5. <u>Price</u> (20 Points Possible) (_____ Points Awarded)

Twenty (20) points will be awarded to the Proposer submitting the lowest bid for Parts 1 - 4 (the Contract Amount). AN AVERAGE OF ALL THREE YEARS PRICING IS TO BE CONSIDERED WHEN AWARDING POINTS FOR PRICING - THE INITIAL TERM AND THE FIRST AND SECOND ANNUAL RENEWALS. All other proposers will receive a percentage of this amount based upon a formula which divides the low bid by the proposer's bid and is then multiplied by the number of points possible in this part of the Price evaluation.

EXAMPLE: Contractor "A" turns in a bid of \$210,000 and is deemed to be low bid and will receive the full 20 points. Contractor "B" turns in a bid of \$265,000. Bid "A" is divided by Bid "B" then multiplied by the number of points possible (20). (210,000/265,000) x 20 = 15.85, therefore, Contractor "B" will receive 15.85 of 20 possible points. Contractor "C" turns in a bid of \$425,000. Bid "A" is divided by Bid "C" then multiplied by the number of points possible (20). (210,000/425,000) x 20 = 9.88, therefore, Contractor "C" will receive 9.88 of 20 points.

6. <u>Reasonableness of ALL Numbers</u> (15 Points Possible) (_____ Points Awarded)

Up to fifteen (15) points will be awarded as to the reasonableness of ALL numbers, quantities & costs (including, but not limited to fertilizer quantities, mulch quantities based on Contractor's field measurements) provided, including Parts 1, 2, 3, 4, 5 and 6 as well as unit costs from the additional schedules.

Proposer's Total Score

RESOLUTION 2023-15

[FY 2024 ASSESSMENT RESOLUTION]

A RESOLUTION OF THE BOARD OF SUPERVISORS OF THE AVALON GROVES COMMUNITY DEVELOPMENT DISTRICT MAKING A DETERMINATION OF BENEFIT AND IMPOSING SPECIAL ASSESSMENTS FOR FISCAL YEAR 2023/2024; PROVIDING FOR THE COLLECTION AND ENFORCEMENT OF SPECIAL ASSESSMENTS, INCLUDING BUT NOT LIMITED TO PENALTIES AND INTEREST THEREON; CERTIFYING AN ASSESSMENT ROLL; PROVIDING FOR AMENDMENTS TO THE ASSESSMENT ROLL; PROVIDING A SEVERABILITY CLAUSE; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the Avalon Groves Community Development District ("**District**") is a local unit of special-purpose government established pursuant to Chapter 190, *Florida Statutes*, for the purpose of providing, operating and maintaining infrastructure improvements, facilities and services to the lands within the District; and

WHEREAS, the District has constructed or acquired various infrastructure improvements and provides certain services in accordance with the District's adopted capital improvement plan and Chapter 190, *Florida Statutes*; and

WHEREAS, the Board of Supervisors ("Board") of the District has determined to undertake various operations and maintenance and other activities described in the District's budget ("Adopted Budget") for the fiscal year beginning October 1, 2023 and ending September 30, 2024 ("Fiscal Year 2023/2024"), attached hereto as Exhibit A; and

WHEREAS, Chapter 190, *Florida Statutes*, authorizes the District to fund the Adopted Budget through a funding agreement and/or through the imposition of special assessments on benefitted lands within the District, which special assessments may be collected by direct bill or on the tax roll pursuant to Chapter 197, *Florida Statutes*; and

WHEREAS, in order to fund the District's Adopted Budget, the District's Board now desires to adopt this Resolution setting forth the means by which the District intends to fund its Adopted Budget.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF THE AVALON GROVES COMMUNITY DEVELOPMENT DISTRICT:

1. OPERATIONS AND MAINTENANCE ASSESSMENTS.

- a. Benefit Findings. The provision of the services, facilities, and operations as described in Exhibit A confers a special and peculiar benefit to the lands within the District, which benefit exceeds or equals the cost of the assessments. The allocation of the assessments to the specially benefitted lands is shown in Exhibits A and B, and is hereby found to be fair and reasonable.
- **b.** Assessment Imposition. Pursuant to Chapters 190, 197 and/or 170, *Florida Statutes*, and using the procedures authorized by Florida law for the levy and collection of special assessments, a special assessment for operation and

maintenance is hereby imposed and levied on benefitted lands within the District and in accordance with **Exhibits A and B.** The lien of the special assessments for operations and maintenance imposed and levied by this Resolution shall be effective upon passage of this Resolution.

c. Maximum Rate. Pursuant to Section 197.3632(4), *Florida Statutes*, the lien amount shall serve as the "maximum rate" authorized by law for operation and maintenance assessments.

2. COLLECTION AND ENFORCEMENT; PENALTIES; INTEREST.

- a. Tax Roll Assessments. If and to the extent indicated in Exhibits A and B, certain of the operations and maintenance special assessments (if any) and/or previously levied debt service special assessments (if any) imposed on the "Tax Roll Property" identified in Exhibit B shall be collected at the same time and in the same manner as County taxes in accordance with Chapter 197 of the *Florida Statutes*. The District's Board finds and determines that such collection method is an efficient method of collection for the Tax Roll Property.
- b. Direct Bill Assessments. If and to the extent indicated in Exhibits A and B, certain operations and maintenance special assessments (if any) and/or previously levied debt service special assessments (if any) imposed on "Direct Collect Property" identified in Exhibit B shall be collected directly by the District in accordance with Florida law, as set forth in Exhibits A and B. The District's Board finds and determines that such collection method is an efficient method of collection for the Direct Collect Property.
 - i. Operations and maintenance assessments directly collected by the District shall be due and payable on the dates set forth in the invoices prepared by the District Manager, but no earlier than October 1st and no later than September 30th of Fiscal Year 2023/2024.
 - ii. Debt service assessments directly collected by the District are due in full on December 1, 2023; provided, however, that, to the extent permitted by law, the assessments due may be paid in two partial, deferred payments and on dates that are 30 days prior to the District's corresponding debt service payment dates all as set forth in the invoice(s) prepared by the District Manager.
 - iii. In the event that an assessment payment is not made in accordance with the schedule(s) stated above, the whole assessment – including any remaining partial, deferred payments for the Fiscal Year, shall immediately become due and payable; shall accrue interest, penalties in the amount of one percent (1%) per month, and all costs of collection and enforcement; and shall either be enforced pursuant to a foreclosure action, or, at the District's sole discretion, collected pursuant to the Uniform Method on a future tax bill, which amount may include penalties, interest, and costs of collection and enforcement. Any

prejudgment interest on delinquent assessments shall accrue at the rate of any bonds secured by the assessments, or at the statutory prejudgment interest rate, as applicable. In the event an assessment subject to direct collection by the District shall be delinquent, the District Manager and District Counsel, without further authorization by the Board, may initiate foreclosure proceedings pursuant to Chapter 170, *Florida Statutes*, or other applicable law to collect and enforce the whole assessment, as set forth herein.

c. Future Collection Methods. The decision to collect special assessments by any particular method – e.g., on the tax roll or by direct bill – does not mean that such method will be used to collect special assessments in future years, and the District reserves the right in its sole discretion to select collection methods in any given year, regardless of past practices.

3. **ASSESSMENT ROLL; AMENDMENTS.** The Assessment Roll, attached to this Resolution as **Exhibit "B,"** is hereby certified for collection. That portion of the Assessment Roll which includes the Tax Roll Property is hereby certified to the County Tax Collector and shall be collected by the County Tax Collector in the same manner and time as County taxes. The proceeds therefrom shall be paid to the District. The District Manager shall keep apprised of all updates made to the County property roll by the Property Appraiser after the date of this Resolution, and shall amend the Assessment Roll in accordance with any such updates, for such time as authorized by Florida law, to the County property roll.

4. **SEVERABILITY.** The invalidity or unenforceability of any one or more provisions of this Resolution shall not affect the validity or enforceability of the remaining portions of this Resolution, or any part thereof.

5. **EFFECTIVE DATE.** This Resolution shall take effect upon the passage and adoption of this Resolution by the Board.
